WEBINAR INVITATION

The Evil Within

Gender-based violence and trafficking in persons during the COVID-19 pandemic.

Gender-based violence (GBV) and trafficking in persons (TIP) have always endangered the lives of women and children around the globe, South Africa is no exception. GBV including violence such as human trafficking are cancerous and therefore a threat to the lives of every South African. The gravity of violence committed against women and children does not only compromise their health, dignity, psycho-social wellbeing but also their lives.

The outbreak of COVID-19 in South Africa has not only prematurely redefined human existence but has equally exposed the prevalence of violence against women and children in South Africa today, including internet safety concerns and the protection of children online. The aim of this webinar is to highlight some of the challenges of GBV, TIP and how we can ameliorate these ills in our society.

Date: Tuesday, 22nd September 2020

Time: 09h00 to 10h30 (GMT+2)
